

ACCESSIBILITY

We endeavour to ensure that our business, premises, and product offerings are accessible to all, whether for customers, visitors, or staff.

Our carpark at the rear of the pub includes 'blue badge' spaces located alongside the step free access to the pub.

We have an easy access disabled toilet with step free and single level wheelchair access, and handrails.

The raised bar area has wheelchair access via a portable ramp. Our staff are fully trained in its use.

All steps have handrails.

We keep a large magnifier and 'off the shelf' reading glasses, should they be required.

For families we have baby-changing facilities, supply highchairs, and are accessible for buggies. There are also free sanitary products, nappy bags, and tissues located in the toilets.

We are currently investigating the benefits and practicality of installing a hearing loop throughout the pub.

We are listed in Euan's Guide - the award-winning disabled access charity. [Click here for more information.](#)
